

PRODUCT DATA SHEET

Sika® Injection Cleaner C2

Polar cleaning agent for Sika® resin products

DESCRIPTION

Sika® Injection Cleaner C2 is a 1-part polar cleaning agent for cured resins. It can be used to remove cured resins during pump maintenance or repair work. It removes polyurethane, epoxy and acrylic resins.

USES

- Cleaning agent for injection pump parts and equipment

CHARACTERISTICS / ADVANTAGES

- Cleaning agent for cured injection resin
- Cleaning agent for polyurethane, epoxy and acrylic resins
- Free of CFC's, FC and chlorine

PRODUCT INFORMATION

Packaging	Refer to current price list for packaging variations.
Colour	Colourless
Shelf life	24 months from date of production
Storage conditions	The product must be stored in original, unopened and undamaged sealed packaging in dry conditions at temperatures between +5 °C and +30 °C. Always refer to packaging.

SYSTEMS

Compatibility	Polyurethane Resins/Foams/Epoxy Resins	
	Intermediate Cleaning	Sika® Injection Cleaner C1
	Final Cleaning	Sika® Injection Cleaner C1
	Removal of cured material	Sika® Injection Cleaner C2
	Preservation of pumps	Sika® Injection Conservator

Silicate Resins

Intermediate Cleaning	Comp. A: Water Comp. B: Sika® Injection Cleaner C1
Final Cleaning	Sika® Injection Cleaner C1
Removal of cured material	Sika® Injection Cleaner C2
Preservation of pumps	Sika® Injection Conservator

Acrylate Resins

Intermediate Cleaning	Water
Final Cleaning	Water + standard dishwashing liquid
Removal of cured material	Sika® Injection Cleaner C2
Preservation of pumps	Sika® Injection Conservator

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

IMPORTANT CONSIDERATIONS

- The cleaner must not be used for rinsing the injection pumps.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

APPLICATION

Cleaning of cured injection materials

Sika® Injection Cleaner C2 must not be used to rinse the injection pump. The cleaning agent can attack all non-metallic parts inside the pump. Remove the resin contaminated parts of the pump, place in a suitable container and immerse in the Sika® Injection Cleaner C2 for an extended period (depends on contamination). The cured injection resin will gradually soften and swell, it can then be removed easily.

Disposal

Used cleaning and preservative agents must be collected in suitable sealable containers and must be disposed of in accordance with relevant local regulations.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the declared data for this product may vary from country to country. Please consult the local Product Data Sheet for the exact product data.
